The Essence of Decision

Allison is best known as a political scientist for his book Essence of Decision: Explaining the Cuban Missile Crisis (1971), in which he developed two new theoretical paradigms – an organizational process model and a bureaucratic politics model – to compete with the then-prevalent approach of understanding foreign policy decision-making using a rational actor model.

Graham Allison - Wikipedia

Graham Allison’s Conceptual Models and the Cuban Missile Crisis (1969) and Essence of Decision: Explaining the Cuban Missile Crisis (1971) introduced two new decision-making approaches—the bureaucratic politics model and the organizational process model—to explain the October 1962 confrontation between the United States and the former Soviet Union. Despite being the subject of significant criticism for nearly four decades, the models are enduring elements of the foreign policy analysis ...

Bureaucratic Politics and Organizational Process Models ...

The Essence of Allison lies in three approaches to understanding government behavior, three conceptual models, as he calls them. The models are composed of the assumptions we use, the questions we ask, the information we seek, the vocabulary we employ; and they shape the answers we get. Model I is the Rational Actor.
