You've learnt some important basics about Construct: adding objects, using behaviors, events, layers and more. Hopefully this should leave you well prepared to learn more about Construct! Try exploring its features and see what it can do for you.

Finishing up - Beginner's guide to Construct 3

Construct will create a Sprite with that image for you. Be sure to drag each image in one at a time though - if you drag all four files in at once, Construct will make a single sprite with four animation frames. Move the bullet and explosion sprites to somewhere off the edge of the layout - we don't want to see them when the game starts.

Adding more objects - Beginner's guide to Construct 3

In A Beginner's Guide to Constructing the Universe, Michael Schneider, an education writer and computer consultant, combines science, philosophy, art, and common sense to reaffirm what the ancients observed: that a consistent language of geometric design underpins every level of the universe, from atoms to galaxies, cucumbers to cathedrals. Schneider also discusses numerical and geometric symbolism through the ages, and concepts such as periodic renewal and resonance.
