What is a Functional Requirement?

Specification, Types

...

The Functional

Requirements

Document (FRD) is a

formal statement of an

application's functional

requirements. It serves

the same purpose as a

contract. Here, the

developers agree to

provide the capabilities

specified. The client

Online Library

Functional

Requirement

agrees to find the product satisfactory if it provides the capabilities specified in the FRD.

Functional Requirements Document -

Tutorialspoint

Functional and nonfunctional requirements can be formalized in the requirements specification (SRS) document. (To learn
