Our GM high performance transmissions are built to the horsepower, torque, and rear gear ratio specs of the engine that it will be matched to. Unlike other high performance transmissions builders, each individual transmission is built by one technician from start to finish.

GM High Performance Transmissions - Gearstar Performance

Only two gears, best suited for very light vehicles, under 1800 lbs. The Powerglide is a two-speed automatic transmission designed by General Motors. It was available primarily on Chevrolet from January 1950 through 1973, although some Pontiac models also used this automatic transmission after the fire at the Hydra-Matic factory in 1953.
