Trigonometry: Derived from two Greek terms trignon (meaning a triangle) and metron (meaning a measure), it is the study of relationships between angles and sides of triangles. Analysis : It is the branch that deals with the study of the rate of change of different quantities.

Branches of Maths: Arithmetic,Algebra,Geometry ...

Modern algebra, also called abstract algebra, branch of mathematics concerned with the general algebraic structure of various sets (such as real numbers, complex numbers, matrices, and vector spaces), rather than rules and procedures for manipulating their individual elements.. During the second half of the 19th century, various important mathematical advances led to the study of sets in which ...
