Definition of Payment for Insurance. A company's property insurance, liability insurance, business interruption insurance, etc. often covers a one-year period with the cost (insurance premiums) paid in advance. The one-year period for the insurance rarely coincides with the company's accounting year. Therefore, the insurance payments will likely involve more than one annual financial statement and many interim financial statements.

How do you record a payment for insurance? | AccountingCoach

Associate in Insurance Accounting and Finance (AIAF™) Learn the practices, principles, and procedures used to prepare insurer financial statements by earning your AIAF designation.

Associate in Insurance Accounting and Finance | The Institutes

Liability Insurance Liability insurance is designed to protect the business against losses even if they are negligent or liable for damage, injury or loss to another's property, reputation, or health. Typically, damages, legal defense fees and settlement charges are paid by the insuring company when a claim is filed against the business.

Property Liability Insurance

Liability insurance and property insurance can be combined - like in a homeowners or auto policy. This is the most popular choice. You can, however, sometimes choose one or the other. You will also have to decide how much coverage you want.
