The sport of track-and field consists of running, jumping and throwing events, several of which trace their origins as far back as the ancient Greek Olympics, including the discus and javelin. In modern competition, track and field contains four throwing and four jumping events, with a division for men and women in each event.

### Types of Throwing & Jumping Events | SportsRec

Track and field is a sport that consists of a number of events. These events include athletics such as running, jumping, and throwing. Most of the events are individual but a few, like relay events, involve a team. Team competitions allocate points to events and athletes gain points to their team's total by finishing high in individual events.

### Track and Field: Running, Jumping, and Throwing

In the 19th century, the term athletics acquired a more narrow definition in Europe and came to describe sports involving competitive running, walking, jumping and throwing. This definition continues to be prominent in the United Kingdom and the former British Empire. Related words in Germanic and Romance languages also have a similar meaning.
