Impact of the Social Worker on Community Development | OLLU

Social conflict is the struggle for agency or power in society. Social conflict occurs when two or more actors oppose each other in social interaction, each exerts social power with reciprocity in an effort to achieve incompatible goals whilst preventing the other from attaining their own. It is a social relationship wherein action is intentionally oriented to carry out the actor's own will despite the resistance of others.

Social conflict - Wikipedia

The first step of understanding how to deal with conflict in your community is to be able to identify the cause or source of the friction. Generally, conflict will arise either out of conflicting personalities amongst your community's membership, be related to common difficulties associated with the usage of online communication tools, how your membership go about achieving their goals, or the members' perception of you as a community manager, your company or the online space you've provided ...
