Chapter 8 Laboratory
testing INTRODUCTION

Laboratory testing is
part of the physical
survey. As an integral
part of site
investigation, the need
for laboratory tests will
often dictate the type
and frequency of
sample to be taken,
and will therefore
control the method of

In situ testing - geotechnique.info

The test is routinely performed in conjunction with other field and laboratory tests. Cone Penetration Test (CPT) Cone penetration test (CPT) can be performed to evaluate effectively the site characterization. It is a valuable method of assessing the subsurface stratigraphy associated with soft materials,
