Step 11 - Installation with click guard. For the installation of laminate flooring in commercially-utilized rooms, a sealing procedure must be carried out [11]. Clickguard™ protects the flooring from the top down for the long-term against the effects of moisture. The floor lamination can be removed later and newly installed.

Guide to laminate installation: instructions for laying ...

to ensure proper laminate installation. • Subfloor should be flat within a tolerance of 1/8" over a span of 4 feet. Any unevenness over 1/8" must be sanded down or filled with a floor leveler. Voids or humps in the subfloor will prevent laminate from locking properly. • A moisture barrier must be placed under all Designer Choice flooring.
