## **Marriage and Family | Introduction to Sociology**

Social scientists have observed that marriages typically move through a series of at least four stages. Each stage presents unique learning opportunities and blessings, along with challenges and obstacles. Progression through these stages is thought to be cyclic. This means couples can move through the stages several times in their lives, each time with an increasing understanding of what is involved for having been there before.

## **Stages of Growth in Marriage - For Your Marriage**

Sociologists are interested in the relationship between the institution of marriage and the institution of family because, historically, marriages are what create a family, and families are the most basic social unit upon which society is built. Both marriage and family create status roles that are sanctioned by society. So what is a family?
