### **Tech Diving Manual - 19pro.santagames.me**

Technical diving is a form of scuba diving that exceeds the typical recreational limits imposed on depth and immersion time (bottom time). Tec diving involves accelerated decompression and/or the use of variable gas mixtures during a dive. Therefore, this advanced method of diving requires additional experience, training and equipment.

You can also get an Equipment Set-up and Key Skills video, which is a great tool to help you practice skills between your tec diving adventures.

### **Tec 40 | PADI**

In technical diving the surface is often inaccessible in an emergency, so tec divers use extensive procedures, equipment and training to manage the added risks and potential hazards. Although founded on extensive open-circuit scuba technology, tec diving has been revolutionized by the development, availability and reliability of closed circuit rebreathers (CCRs).
