Religions have been studying human behavior for thousands of years - long before science got into the game. And for Christians, the seven deadly sins have offered a moral and social framework to get folks on the straight and narrow.

Neuroscientist Jack Lewis says: we can use that framework to inform our future

**The science of skin -
Emma Bryce -
YouTube**

Science of the Mind teaches that "sin" is merely a mistake. Instead of judgment, they teach that people receive consequences. The Bible, on the other hand, describes sin as any thought or action which breaks God's law. "Sin is the transgression of the law" (1 John 3:4).

**Science of the Mind -
AllAboutCults.org**

Neo-orthodox theologian Reinhold Niebuhr once famously said that original sin is "the only empirically verifiable doctrine of the Christian faith." But what was once "empirically verifiable" is now questioned, and even science is being enlisted as its primary foe. As the story goes, modern science indicates that it is
