### Visual Studio Search Solution

As fast as you can type, Visual Studio searches your entire solution for a file or path that starts with the characters you type and you can quickly select that file (with the keyboard using the arrow keys if you wish) and open it. If you're working in a solution with several projects or folders, this can be a significant time saver.

### Visual Studio trick to quickly find any file in solution ...

To search for any of the 20 strings that you searched for most recently, open the drop-down list and choose the string. Choose the adjacent Expression Builder button if you want to use one or more regular expressions in your search string. For more information, see Using regular expressions in Visual Studio.
